RBI Policy Comments of Shri Dinabandhu Mohapatra, MD & CEO, Bank of India

As per the expected lines, RBI has cut the policy rate by 25 bps. Considering the present scenario, the time was most opportune for a rate cut. GVA growth for FY18 has been kept unchanged at 7.3% which will be supported by this rate cut. Inclusion of excess reserves with foreign central banks as part of LCR will help Banks having excess reserves with foreign Central Banks. Proposal to introduce tri party repo is expected to facilitate the development of a vibrant and deep corporate bond market and will supplement other recent developments in this arena like the introduction of municipal bonds. Foreign portfolio investment limit for hedging purposes in interest rate futures has been provided a separate limit of INR 5,000 Crore which will provide stability to FPI flows. Overall, the policy stance is neutral and the rate cut is expected to provide further boost to consumption which in turn will have a positive multiplier effect on the overall economy.
